

**Materials:**

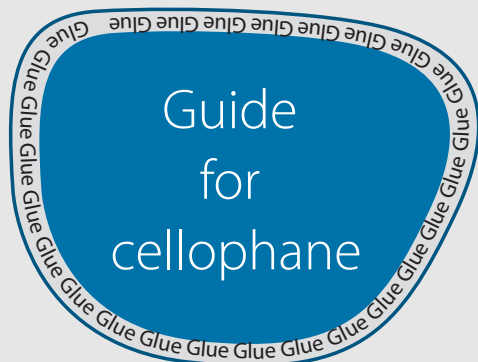

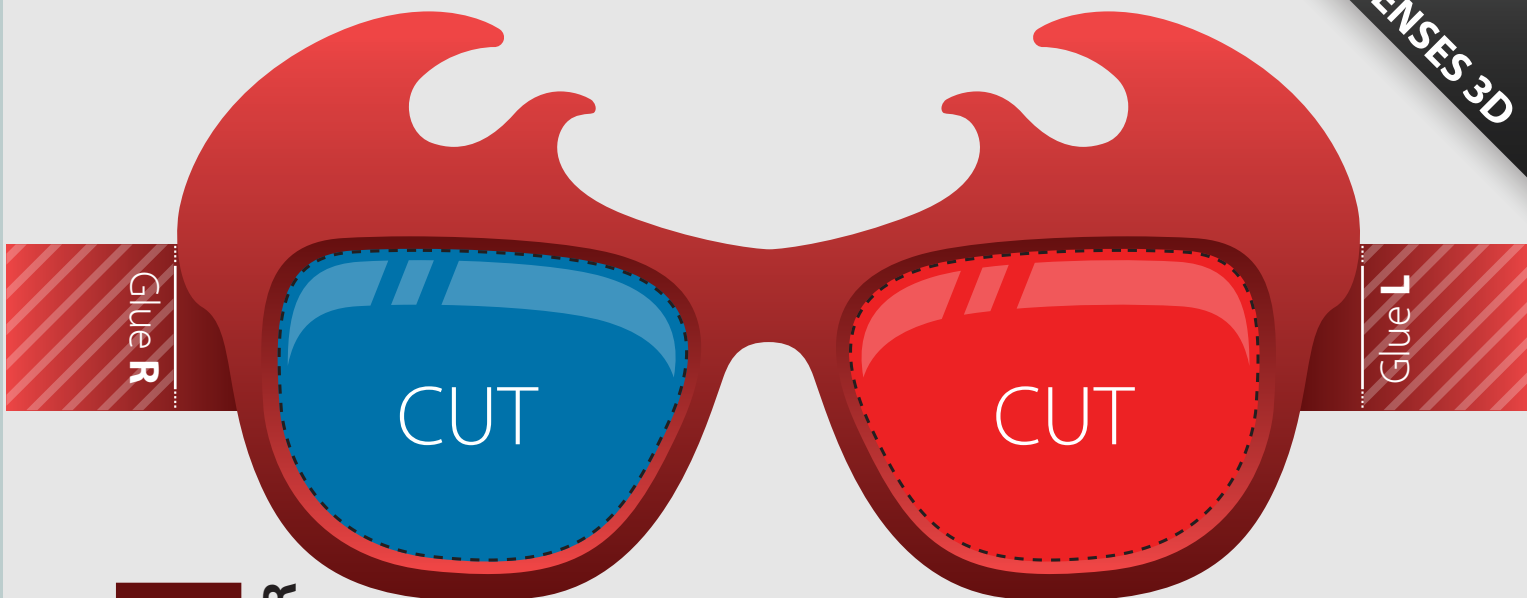

**Cardboard, glue, scissors and cellophane (blue and red).**

- 1- Print this pdf document at 100%
- 2- Glue printed document on the cardboard, let it dry and carefully cut each one of the pieces.
- 3- Lift the red and blue parts, after carefully cutting on the line (where it says "cut").
- 4- Cut the guide to help you made the cellophane lenses.
- 5- Put glue on the cellophanes and stick them to the frames.
- 6- Glue the sides to the frame of the lenses following the dotted line.
- 7- Bend following the dotted line

*(\*) After gluing the cellophanes, it is recommended to put another cardboard layer behind the whole frame in order to contain and secure.*
